

STRONG GROWTH OF THE ACTIVITY DURING THE 1ST QUARTER 2006

(en M€)	03/2006	03/2005	Variation(%)
Consolidated sales figures	52.2	40.0	+30,3%

GOOD ORIENTATION OF ALL THE MARKETS:

The invoicing of the first quarter 2006 displays an increase of more than 30% compared to 2005, including approximately 17% of organic growth. The balance consists in the additional sales turnover generated by the AEP company acquired in May 2005 and by a favorable effect of exchange cash for 5%.

The aeronautical and military markets are strongly progressing as well as the activities of diversification (automotive and industrial applications). The outlets in the infrastructures of cellular telecommunication show a light recovery after several quarters of fall.

2006 OUTLOOK

The Group confirms its forecasts of significant rise of the sales in 2006 which should go together with an increase in operational profitability.

Radiall designs, develops and manufactures electrical components for the wireless applications, automotive telematics and military, aeronautical and space equipment.
