

## STEADY ORGANIC GROWTH

<b>Consolidated sales</b>	<b>06-2007</b>	<b>06-2006</b>	<b>Y/Y-1</b>
1st Quarter	€52,6m	€52,2m	+0.8%
2 <sup>nd</sup> Quarter	€48,7m	€53,9m	-9.6%
<b>Total six months</b>	<b>€101,3m</b>	<b>€106,1m</b>	<b>-4.5%</b>

Over the first six months of 2007, organic growth shows a 10% increase or €10,2m. This results from strong billings to military and avionics customers. This positive trend should continue in the future.

However consolidated sales are reported to a decline of 4.5% due to negative effect of currencies for 3% and impacts of divested activities in 2006.

Télécommunication and Automotive markets are low because of antenna product line sold in 2006.

### 2007 GUIDANCE

Radiall confirms its sales guidance to be slightly lower to 2006 published figure

As previously indicated, operating margin is expected at growth for the first semester and the entire year.

Radiall designs, develops and manufactures electrical components for the wireless applications, automotive telematics and military, aeronautical and space equipment.
