

## Field Applications Engineer with experience in RF H/F

### About RADIALL Group

RADIALL Group (about 2400 people and €200m turnover) has a worldwide presence. Its expertise in connectivity and market knowledge makes it an actor differentiator. RADIALL designs, develops, manufactures and sells electronic components for interconnection technologies (coaxial, fiber optic, multi-contact) for the aerospace, military, aerospace, telecommunications, automotive and industrial markets.

### Job Description

Radiall USA, Inc. Tempe AZ is seeking a Field Applications Engineer with experience in RF who will directly interface with procurement and Radiall engineering groups to support all applicable RF projects with the most effective and profitable Radiall products / solutions. You will work closely with Inside Sales Representatives, Regional Sales Managers and Manufacturer's Sales Representatives to develop business opportunities in North America. Will be responsible to recommend as well as execute the most appropriate solutions to acquire these opportunities in accordance with division strategy.

#### Responsibilities will include :

- Act as the engineering liaison between customers and R&D for RF product lines
- Maintain technical relationships with key customers and support implementation of products
- Negotiate all technical aspects and evaluate function and performance with the internal R&D staff and customer
- Use, maintain and update CRM as required and respond to action as necessary.
- Serve as the sales focal point for special interconnect projects and programs as assigned by supervisor. This includes evaluation of business potential, preparation and follow up on Radiall USA proposals, monitoring of orders and other related functions.

#### Qualifications :

- BS in Engineering from four-year college · Military and/or aerospace sales engineering training and/or experience with interconnect components
- Experience with electro-mechanical RF
- Strong written and verbal English language skills
- To comply with ITAR requirements, must be US citizen or permanent legal resident

Radiall USA Inc. offers a competitive compensation and benefit program to include medical, dental, disability and life insurances; tuition assistance and 401 (k) with employer match and educational assistance.
