

FOR IMMEDIATE RELEASE

Radiall Receives Quality Award from Nokia

November 2015 — Radiall, a global manufacturer of leading-edge interconnect solutions, has received a Quality Award for the successful deployment of the automatic assembly on the SMP-MAX connector. The award was presented to Radiall China during the recent Supplier Summit where 70 best suppliers were hosted by Nokia in Helsinki (Finland).

SMP-MAX, a Radiall RF coaxial connector, connects board-to-board solutions and is a key component used on several Nokia mobile broadband platforms. Committed to providing reliable products, Radiall has provided Nokia millions of SMP-MAX connectors over recent years. In 2014, 18 million SMP-MAX components were delivered to Nokia.

Dedicated to being a key player in the Telecom market and providing high quality solutions, Radiall is honored to receive this award. This achievement recognizes the many years of hard work and dedication put forth by the teams at Radiall China. The award represents Radiall's overall commitment to providing high quality products and the service provided to customers.

Radiall has been present in China for more than 20 years, manufacturing RF connectors and cable assemblies for the Industrial, Medical, Space and Telecommunication markets.

###

About Radiall

Radiall is a global manufacturer of leading-edge interconnect solutions. The company offers an extensive range of interconnect components for high reliability electronic applications. Radiall has sales offices and subsidiaries throughout the world. With HQ located in France, the company realizes more than 85% of its revenue out of France.
