

PRESS RELEASE

Radiall wins the “Grand Prix des Entreprises de Croissance” award, in Electronics & Robotics categories

Paris, 2014 July 4th – Radiall won yesterday the “Grand Prix des Entreprises de Croissance” award in the business category of Electronic & Robotics sector for the companies with an annual revenue between 100 million and 1 billion euros.

Organized in partnership with the Leader League Group and the French Ministry of Economy and Finance, the “Grand Prix des Entreprises de Croissance” honors companies that have successfully maintained a strong growth over the last three years, despite a difficult economic context.

Since 2011, the growth of Radiall Group has grown by an average of 8% per year. This steady growth is due to technological innovation and key positioning in growing markets.

Radiall is delighted by this prize winning: “It recognizes a growth strategy that gives priority to innovation and operational excellence in the service of a long term vision to meet the needs of demanding markets, constantly changing. The prize also goes to our motivated and engaged teams, who put their wealth of experience to better serve our customers, so we are the first to meet their expectations”, said Pierre Gattaz, Chairman of the Executive Board.

In 2014, Radiall continues this growth dynamic and keeps investing in R&D in order to develop more complex solutions. The company expects to be recognized by its customers as the most innovative company in the field of interconnect components for professional electronic applications.

###
