MICROSCOPE TIP FOR C-MTITAN™ VISUAL INSPECTION

Dimensions in mm [inch]

C-MTitan™ protects a standard MT ferrule to maintain excellent optical performance and provide high density connectivity to harsh environments. Inspection of the optical end-faces of the C-MTitan™ is possible and convenient with this dedicated tip.

FEATURES:

- Dedicated tip for C-MTitan™ visual inspection
- Compatible with MT ferrule IEC 61754-5 and RADIALL C-MTitan™ cartridges (F735 1xx xxx)
- Refer to Radiall Inspection and cleaning procedure for C-MTitan™: 503 08 830 for further information
