CLEANING & INSPECTION KIT FOR LUXCIS® ARINC 801 (VIDEO DISPLAY NOT INCLUDED):

Radiall's high quality Fiber Optic cleaning kits contain the best tools and supplies to effectively remove the toughest contaminants in any fiber network.

PREMIUM CLEANING & INSPECTION KIT provides a complete and thorough answer to the current need of the fiber optic market. Processes have been tested and approved by field technicians and production chain.

All cleaning materials are lint-free and enable an optimal wet and dry cleaning process.

FEATURES:

The kit is the optimal solution for precision inspection & cleaning of LuxCis® ARINC 801 termini end-face to accompany Radiall procedure **503 08 590**:

- Contains everything needed to eliminate the #1 cause of fiber link failure: contamination
- Adapted to either Multimode, SingleMode or Singlemode APC polished termini
- Detailed cleaning instructions for terminus inside and/or outside multipin connectors
- Rugged carrying case safely stores and transports all cleaning tools and supplies (compatible with air transport)
- Digital analysis probe 200x / 400x equipped with USB port for easy PC or laptop connection

NOTES:

All of the referenced products can also be ordered separately.
Available replacement consumables for easy kit replenishment in the CLEANING SUPPLIES KIT: **F780 541 000**.
Canned air is not included in this kit.
Manual microscope for patchcord inspection outside multipin connectors (F780 545 000) is available separately.

Dimensions: 450 x 380 x 130 mm
Weight: approximately 1.5kg

Please contact your local representative for any information.
