CLEANING SUPPLIES KIT FOR Q-MTITAN™:

Radiall's high quality Fiber Optic cleaning kits contain the best tools and supplies to effectively remove the toughest contaminants in any fiber network. All cleaning materials are lint-free and enable an optimal wet and dry cleaning process.

FEATURES:

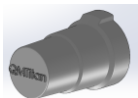

The kit is the optimal solution for cleaning Q-MTitan™ end-face to accompany Radiall procedure **503 08 840** and contains everything needed to eliminate the #1 cause of fiber link failure: contamination.

The CLEANING SUPPLIES KIT can be used to reload the preexisting kits: CLEANING & INSPECTION KIT: **F780 735 111** and PREMIUM CLEANING & INSPECTION KIT: **F780 735 110**.

NOTES:

All of the referenced products can also be ordered separately.
The kit enables cleaning of approximately 100 Q-MTitan™ contacts.
