

**FOR IMMEDIATE RELEASE**

## **Radiall, Applied Engineering Products, AEP – celebrates 40 years**

November 2013 – Applied Engineering Products, now Radiall New Haven, is proud to celebrate 40 years of service. Applied Engineering Products, more commonly known as AEP, was established by Ben Trivelli in 1973 in Ansonia, Connecticut. It has been in New Haven since 1981. In June 1989, AEP moved to a custom-built facility in the Fair Haven section of New Haven and was further expanded in 2001.

Since 1973, AEP has taken great pride in fostering strong vendor and customer relationships. The facility offers top of the line equipment, manufacturing the widest range of coaxial interconnects solutions in the RF industry. Specializing in coaxial connectors and RF cable assemblies, both AEP and Radiall have always shared the goal of providing excellent customer service, and strong quality products to meet the demands of customers.

Centrally located, Radiall New Haven is easily accessible for all employees and is proud to recruit talent directly from the community. In the New Haven facility, there are currently 160 dedicated employees, including 43 employees that have been with the company for more than 15 years.

###

### **About Radiall**

Radiall is a global manufacturer of leading-edge interconnect solutions. The company offers an extensive range of RF coaxial connectors and cable assemblies, coaxial switches, fiber optic and microwave components, multipin connectors and more. Radiall has sales offices and subsidiaries throughout the world, R&D in the U.S., Europe and China, along with manufacturing facilities strategically located in the U.S., Mexico, India, and China.
