

Mouser Now Stocking Radiall Interconnect Components Mouser Now Stocking Radiall RF Connectors and Interconnect Devices

Mouser and Radiall, Offering Innovative Interconnect Components and More

April 19, 2013 – [Mouser Electronics](#), Inc. today announced a new global distribution agreement with [Radiall](#) to distribute their extensive range of innovative RF, fiber optics, and microwave products.

Radiall is a well-known world market leader providing reliable, innovative product, with repeatable performance and award winning vendor support. Recognized as a leading global supplier, Radiall provides superior solutions for numerous demanding industries including Aerospace, Defense, Industrial, Medical, Instrumentation and Telecommunications. Their expertise in interconnect technologies makes Radiall a valued partner across the globe.

Mouser's new agreement with Radiall offers an extensive range of RF coaxial connectors and cable assemblies, RF and microwave switches, fiber optics, and microwave components. Among the Radiall product Mouser will be stocking is the new BNC HD - True 75 ohm HDTV Connector Series, the Radiall Modular System for Electromechanical Switches (RAMSES), the SMP-MAX Series and the RF Coaxial Waterproof QMA Connectors.

"We couldn't be more excited to announce our relationship with Radiall" says Krystal Jackson, Vice President of Interconnect for Mouser. "Radiall, like Mouser, is at the forefront of introducing innovative products on a global level. Radiall is a company that designs, develops, and manufactures high quality connectors and associated components and the partnership between our two companies will provide the highest quality solutions for design engineers worldwide."

"We recognize Mouser as a leading distributor with the ability to provide engineers a technological edge and speed-to-market advantage," said Ross Martinez of Radiall. "Mouser has decades of experience as a trusted, authorized distributor of the newest products for design and best-in-class service. We look forward to a mutually successful partnership."

About Radiall

Radiall is a global manufacturer of leading-edge interconnect solutions. The company offers an extensive range of RF coaxial connectors and cable assemblies, coaxial switches, fiber optic and microwave components, multipin connectors and more. Radiall has sales offices and subsidiaries throughout the world, R&D in the U.S., Europe and China, along with manufacturing facilities strategically located in the U.S., Mexico, India, and China. www.radiall.com
